Experience Somfy Smart Shading Solution at the start of everyday

Imagine closing the blinds in your bedroom each night at the touch of a button and being woken by gentle sunlight in the morning, at a scheduled time that suits you.

When you leave home, you no longer need to remember to close all the curtains, thanks to Somfy's automation solution.

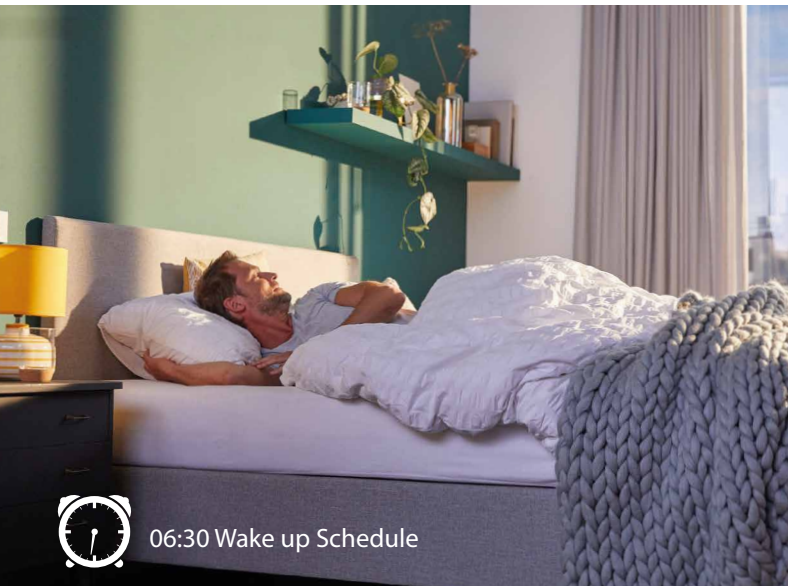

Relax and ensure peace of mind while on holiday with presence simulation and the ability to control your window coverings from wherever you are in the world, right from your smartphone.

Enjoy the complete smart home experience with hands-free control using Google Home, Amazon Alexa and IFTTT. Watch your home spring into action without having to lift a finger!

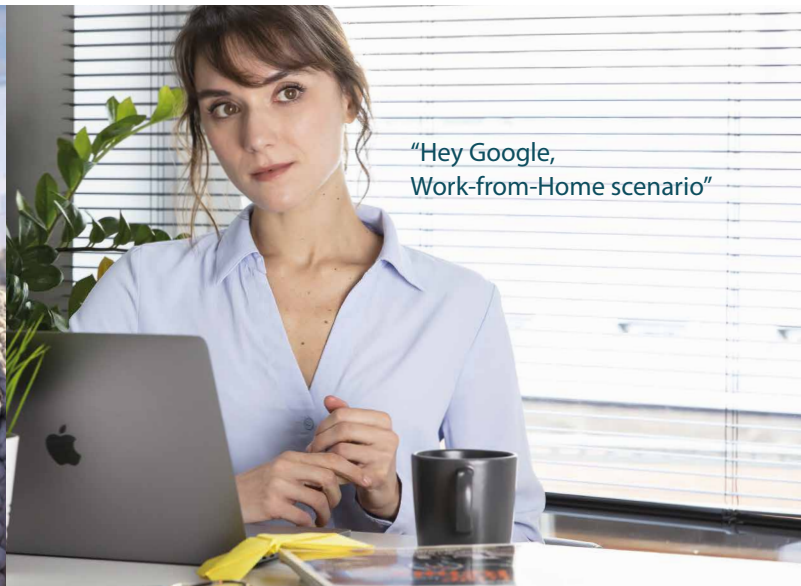

Life with Somfy Smart Shading Products

Your Somfy Smart Shades create the perfect
ambiance in your smart home at all times.

06:30 Wake up Schedule

"Hey Google,
Work-from-Home scenario"

Start your day with natural light

As your alarm goes off, your shades open to wake you with natural light, giving you energy throughout the day.

Work & play comfortably

Adjust the shades with the sound of your voice to ease the glare of the midday sun on your computer screen while your automatic lights adjust to provide optimal lighting for your work environment.

Relax by just saying the word

Ask your shades to automatically adjust to allow for the perfect amount of sunlight, your air conditioner to set itself to your preferred temperature and your television to turn on without having to lift a finger.

End your day on the perfect note

Your shades fully close at dark to provide privacy, your room lights automatically turn on and your smart speakers plays your favourite music.

Extend your smart home experience to include natural light control with simple, stylish shading.

Create privacy by automatically lowering shades as night approaches.

Effortlessly adjust window coverings as desired.

Create a peaceful environment with near-silent operation.

Smart shading benefits you

Brighten your home interior with connected blinds and curtains seamlessly integrated with the smart home devices you already use every day.

Offer daily convenience with multiple ways to control your shades, including wall swatches, mobile apps, remote controls and voice control capabilities.

Eliminate dangerous cords to keep precious loved ones safe.

Flexibly connect with multiple gateways via wifi, all motorised shades become smart.

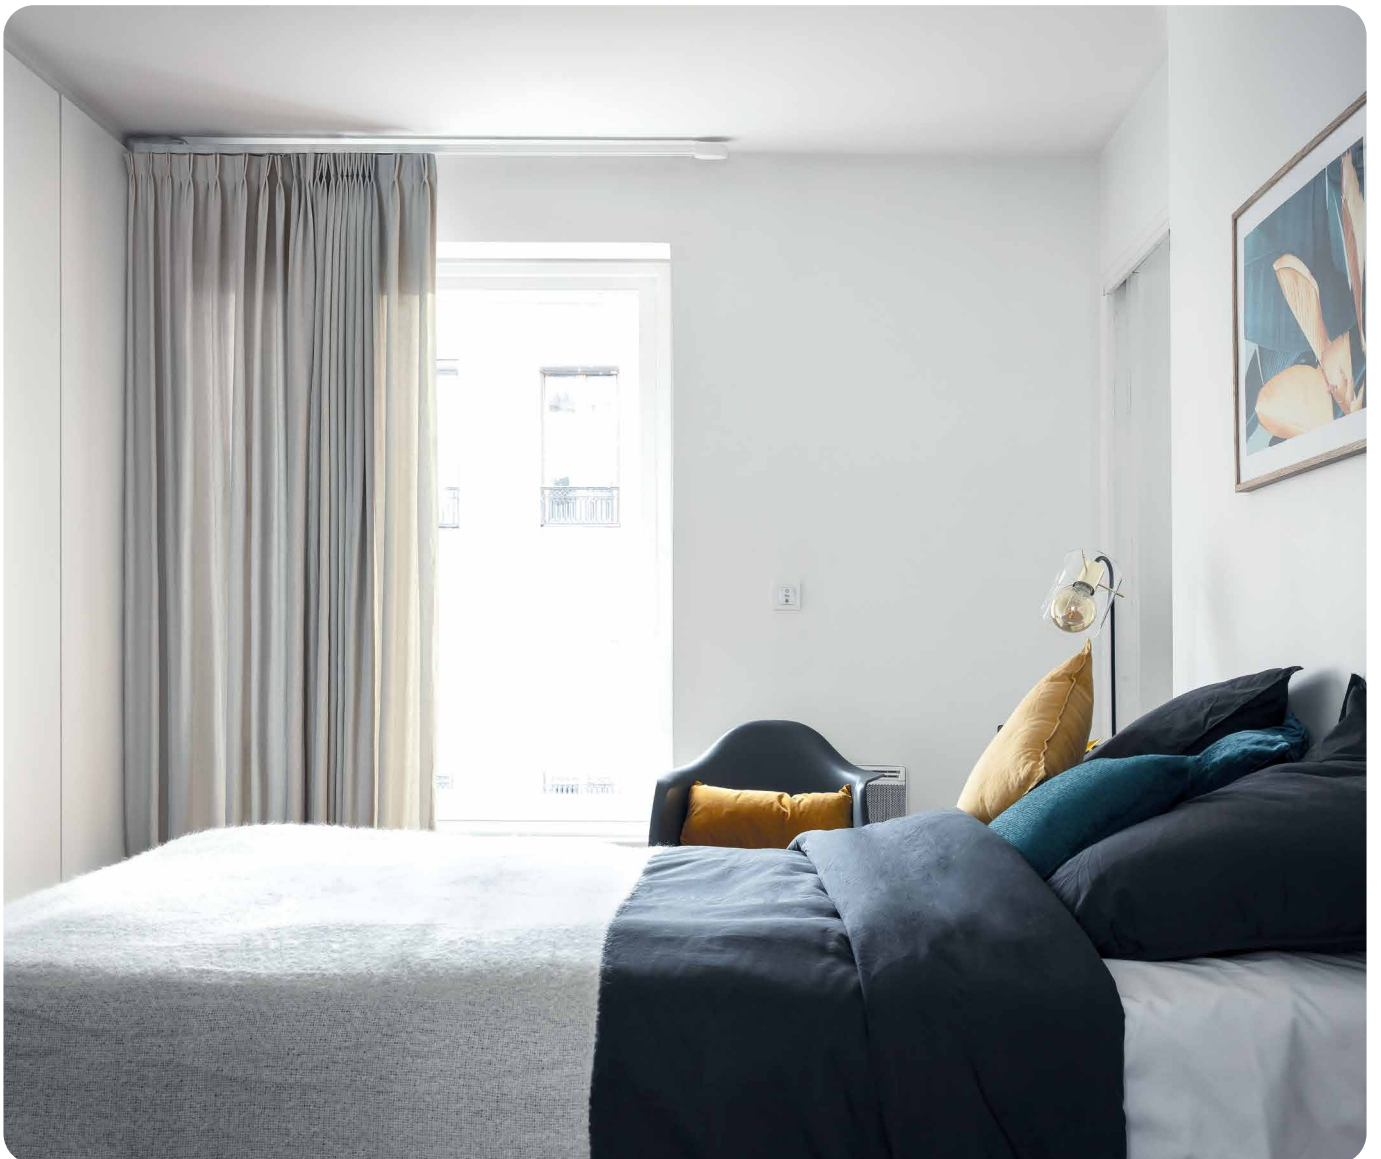

The Somfy Guarantee

With Somfy, you will have the reassurance that your smart shades are supported by more than 50 years of innovation and leadership in motorisation. Each of our motors comes with a 5-year warranty - that's our commitment to high standards.

TaHoma® Beecon (Hub)

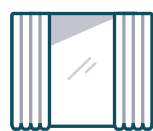

Improve your visual and thermal comfort,
while elevating your interior design.

Motorised blinds and curtains are the first step to making life at home more comfortable and convenient.

By adding a touch of connectivity, light and heat intensity are optimised at all times without having to think about it.

Somfy's motorisation lets you choose from a variety of types and styles of window coverings to elevate any interior design.

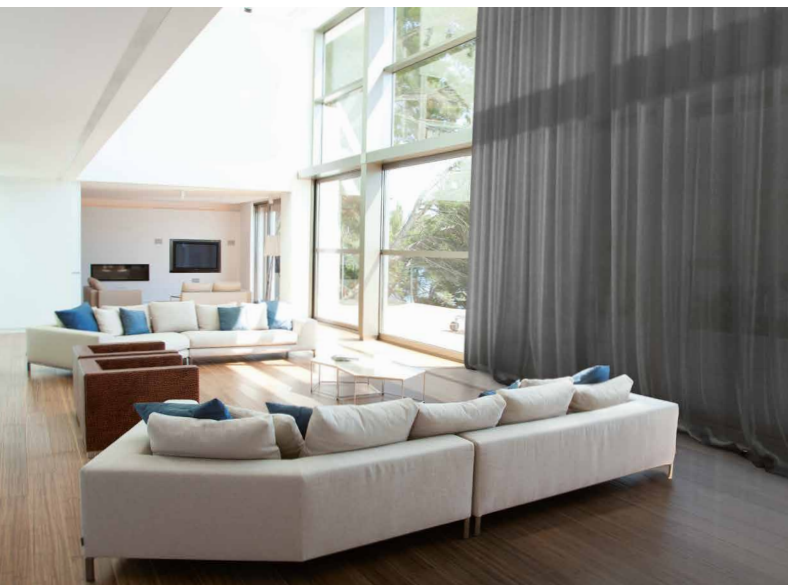

Smart Curtains

Create an impeccable impression in any space. Smart curtains add charm and romance to a small room, and bring boldness to a plain room.

Enhanced comfort

- Easily adjust curtains with a simple remote, from your phone or with your voice.
- With the programmable schedule, close them on their own at dusk for privacy.

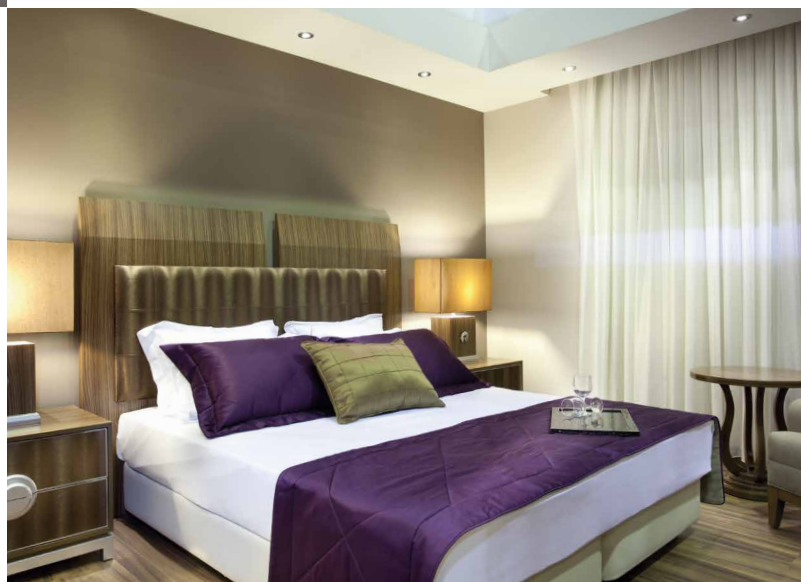

Improved aesthetic appeal

- Smooth control ensures evenly-spaced curtain folds at any position, with no gapping or drooping of the fabric.
- Back release feature stops curtain fabric bunching on the sides.
- Soft-Start Soft-Stop - starting and stopping gently and gradually for extra elegance.

Increased efficiency

- Curtain fabric stays clean and lasts longer as there is no need for manual handling.
- Makes curtain at hard-to-reach window possible to adjust, imaging double-height ceiling.

Smart Wirefree Blind

Sonesse® Ultra 30 WF RTS Li-ion & Altus 28 WF RTS Li-ion II
The powerful and easy-to-install motors

Li-Ion

It is a type of rechargeable battery, with mature & proven technology. The most compact solution with no memory effect and a low self-discharge for a higher battery life.

Safety

The Somfy Li-ion offer is comprised of motors and chargers. Each element is meticulously tested to ensure safe and optimal performance.

Quality

Somfy guarantees the choice of the most reliable suppliers with a controlled manufacturing process.

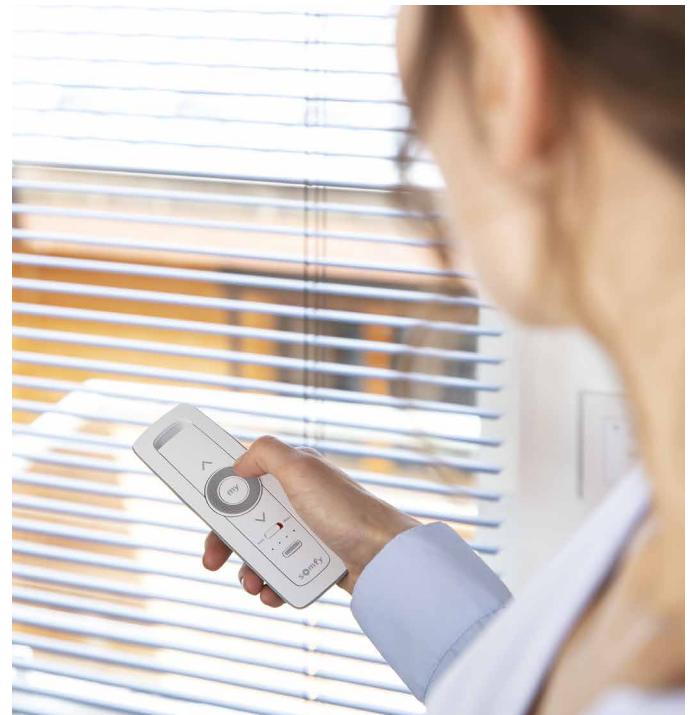

Autonomy

Somfy offers long-lasting batteries that need to be recharged only once or twice a year.

Smart Controls

Choose the best control device for your needs

Compatible with other Somfy-powered products and smart home brands to provide you the ultimate in flexibility and performance.

and Google Assistant

TaHoma Living app easily controls Somfy motorised blinds and curtains with a smartphone or tablet at anytime, from anywhere. Home or away.

Smart Controls

Bid farewell to white plastics switches and exuding brute strength when opening or closing your curtains and blinds. Somfy provides a wireless solution with Smoove battery-operated wall switch. Surface-mount design eliminates the need to cut the drywall which makes installation quick and simple. It also allows you to automate a single or a group of blinds intuitively and effortlessly.

Powering your window coverings

With Somfy, you can discover automation options for all types of interior curtains and blinds. Mains powered or WireFree (battery) options offer different benefits and price points. You can also choose from a large selection of control options, including handsets, wall switches, timers or sensors. No matter what your preferred solution may be, Somfy guarantees ease of use, reliability and quality.

My power options

Mains, permanent power

If you have the option to include wired-in technology, you could consider our Sonesse range of motors. Control these quiet motors with a simple remote control or integrate them into your home automation system.

Why choose mains...

- Mains electricity ensures maximum power and
- smooth operation at all times
- Ideal for larger or heavier blinds
- Continuous power supply gives you peace of mind

Battery, a simple solution

Our WireFree™ motors can run on rechargeable lithium-ion battery therefore it eliminates the need to run cables behind walls which allows for easy installation and setup. There are no unsightly wires to deal with either to keep your décor clean and posh.

Why choose battery...

- Easy to install (save wiring cost)
- Long battery life (single charge lasts up to 9 months)
- Ideal for areas where it is difficult to get mains power

Powered by **Somfy**

Somfy motors are affixed discreetly within your shading system, or having a battery, and don't require any disruption to your decor. Our industry leading motors will deliver unrivalled power to your automated solution and come with a full warranty for your complete peace of mind.

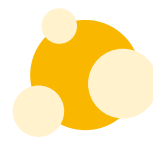

Unique benefits

Smooth motion significantly increase blind / curtain lifespan

Automate your preset blinds to achieve maximum privacy

Activate "ambience" to align your shades with your mood

Protect your furniture and décor from the sun

Silent operation expresses class and elegance

Patented technology ensures quality, durability and safety

App and voice control options

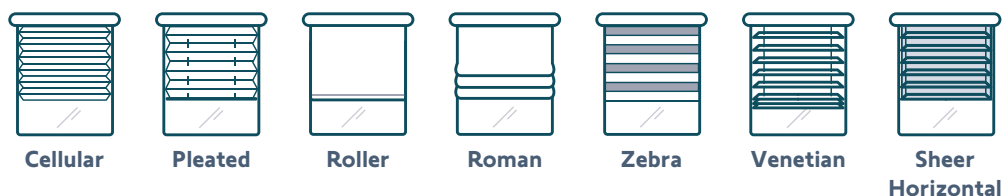

Cordless design for maximum safety for children and pets

Compatible with leading Smart Home Systems
