Experience a truly connected home with Somfy

Imagine closing the blinds in your bedroom each night at the touch of a button and being woken by gentle sunlight in the morning, at a scheduled time that suits you.

When you leave home, you no longer need to remember to close all the curtains, thanks to Somfy's timers and sensors.

Relax and ensure peace of mind while on holiday with presence simulation and the ability to control your window coverings from wherever you are in the world, right from your smartphone.

Enjoy the complete smart home experience with hands-free control using Google Home and Amazon Echo with IFTTT. Watch your home spring into action without having to lift a finger!

“ Let the smart shading possibilities free my imagination and design creativity improve my home interior experience.

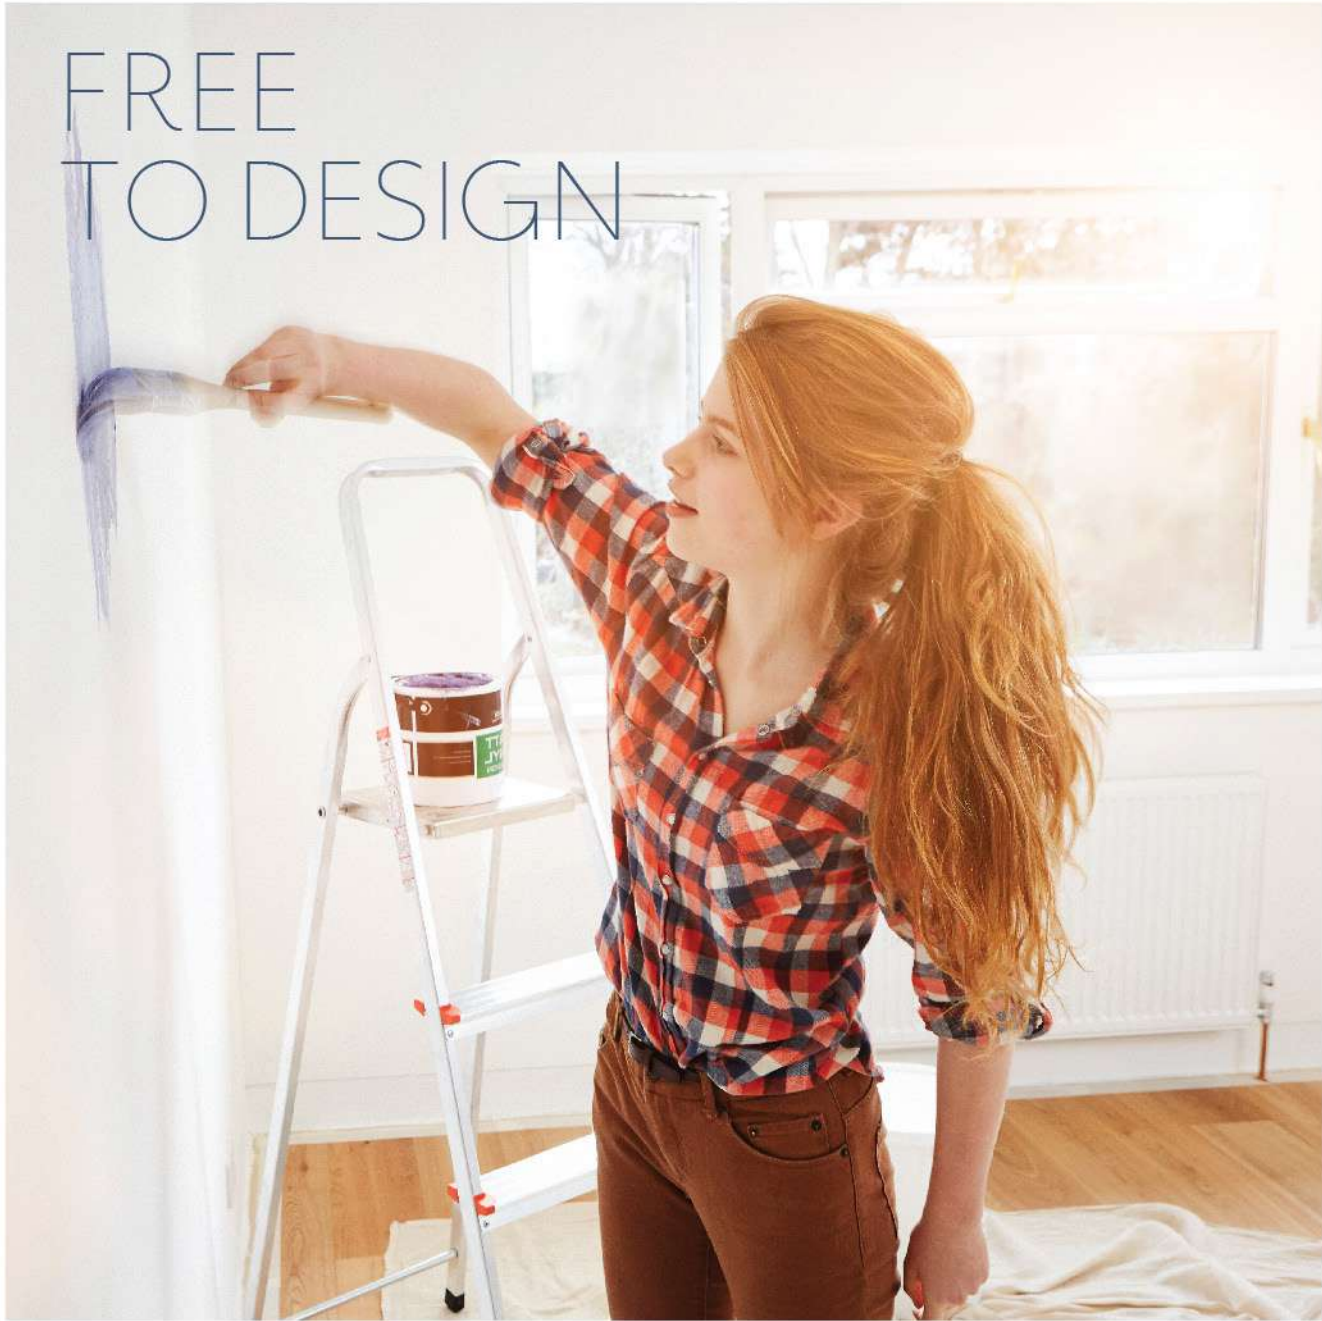

“ Always get the right balance between natural and artificial light, protect my privacy without thinking about it, create my preferred ambiance at anytime.

“ Be free to make the most of my everyday with automation and connectivity options or enjoy the perfect ambiance with a simple voice command.

Let the possibilities spark your imagination. Get inspired with innovative technology that gives you the power to design the look and feel of your home.

Somfy's motorisation lets you choose from a variety of types and styles of window coverings to elevate any interior design.

FREE UP THE EVERYDAY

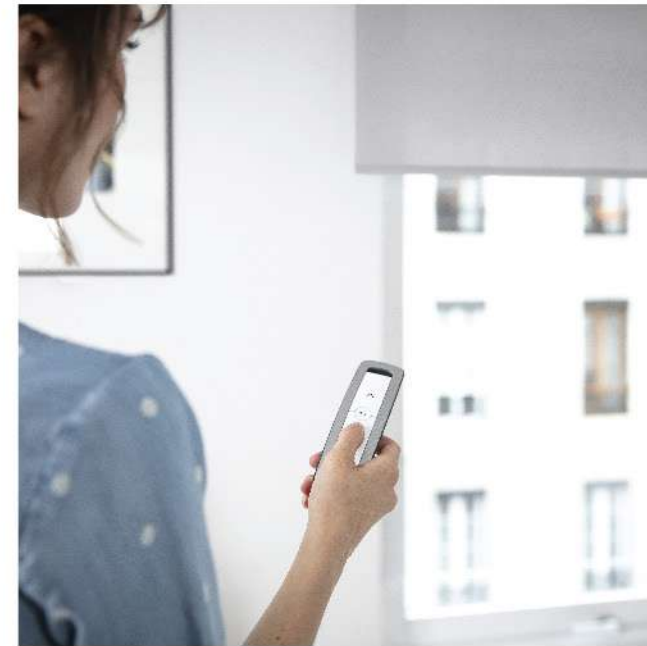

Dare to create a home that complements your unique lifestyle.

Whether you are waking up, working or winding down, experience the convenience of push button privacy and the simplicity of controlling natural light. Enjoy the moment in peace thanks to the innovative silent technology of our motorised blinds & curtains. Take comfort knowing your window coverings are free of hanging cords and a safe option for children and pets.

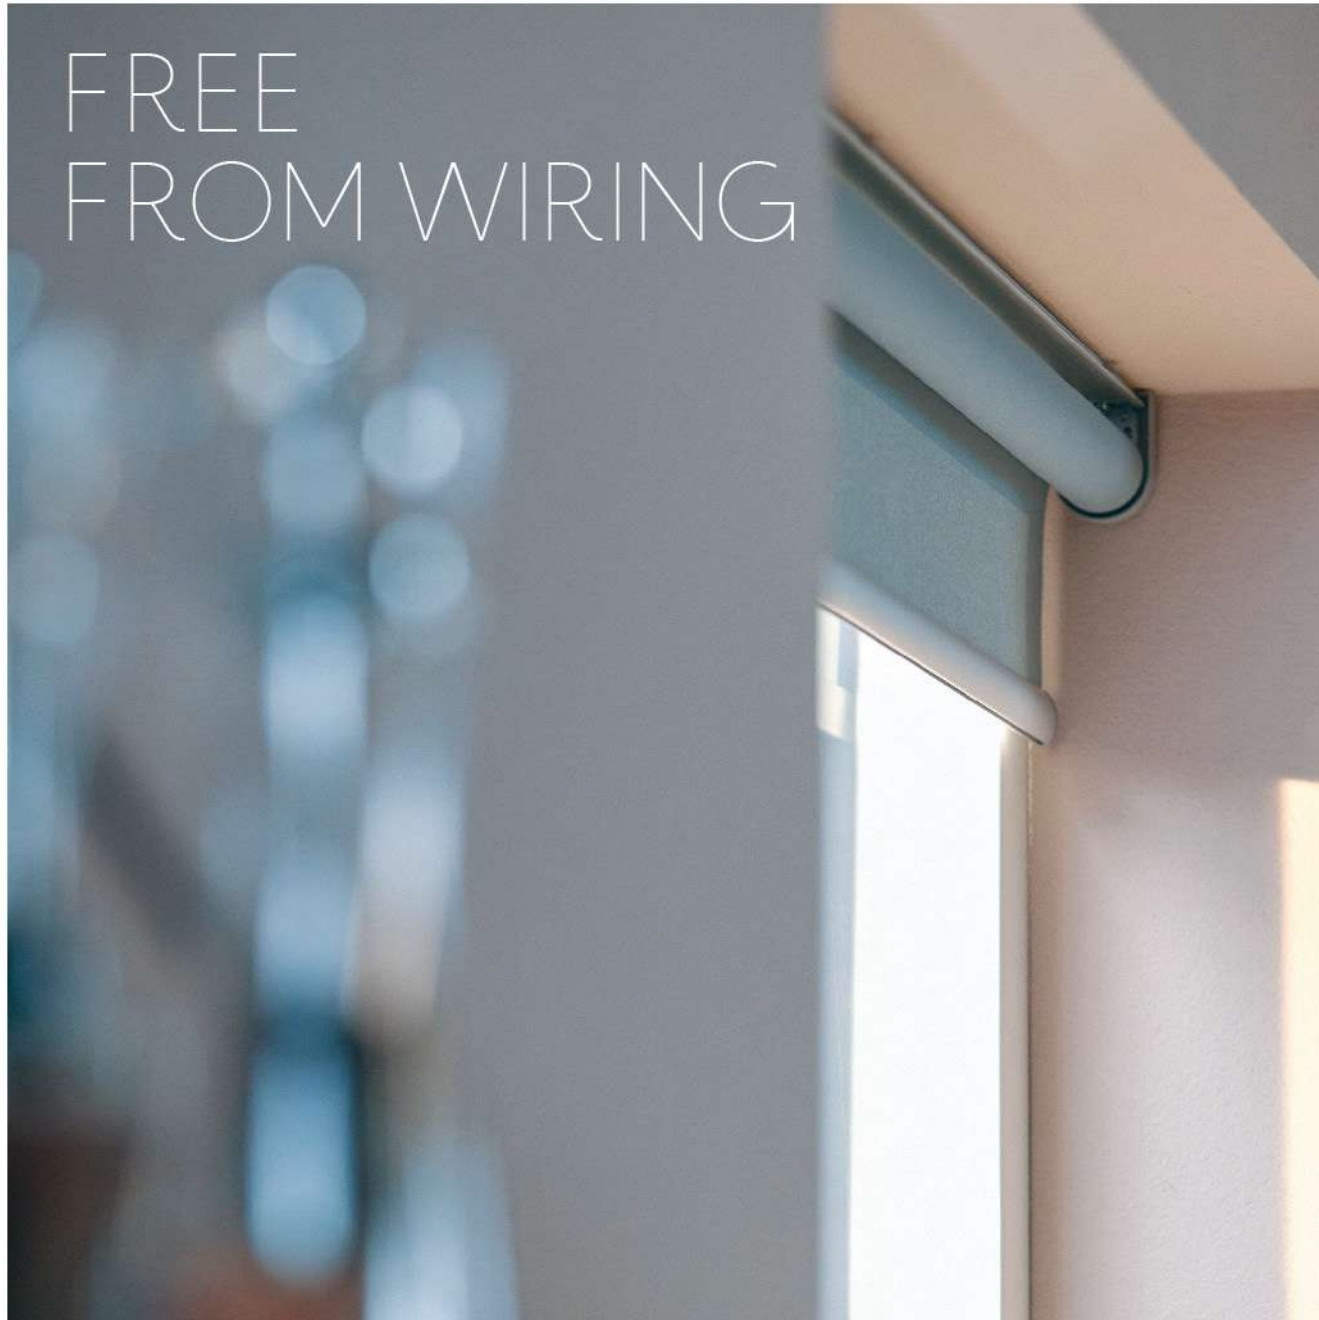

FREE TO CONNECT & CONTROL

Let technology do the work and experience the benefits of smart living provided by our internal motor range.

Effortlessly automate daily tasks and set timers to keep your home cool and protect your furnishings, even when you are away from home. Explore the possibilities with a remote, app, voice control or a sun sensor.

FREE FROM WIRING

WireFree range: no need for electrical wiring

Somfy's new WireFree motorisation range is designed to accommodate all types of blinds and curtains. This easy-to-install solution is completely wireless and is powered by high quality rechargeable lithium-ion batteries. Only recharge once or twice a year.

Walls are preserved as your design canvas thanks to clean, discreet and easy installation. There's no need for electrician expenses or wiring expenses.

Enjoy a better way of living and true peace of mind with Somfy WireFree range!

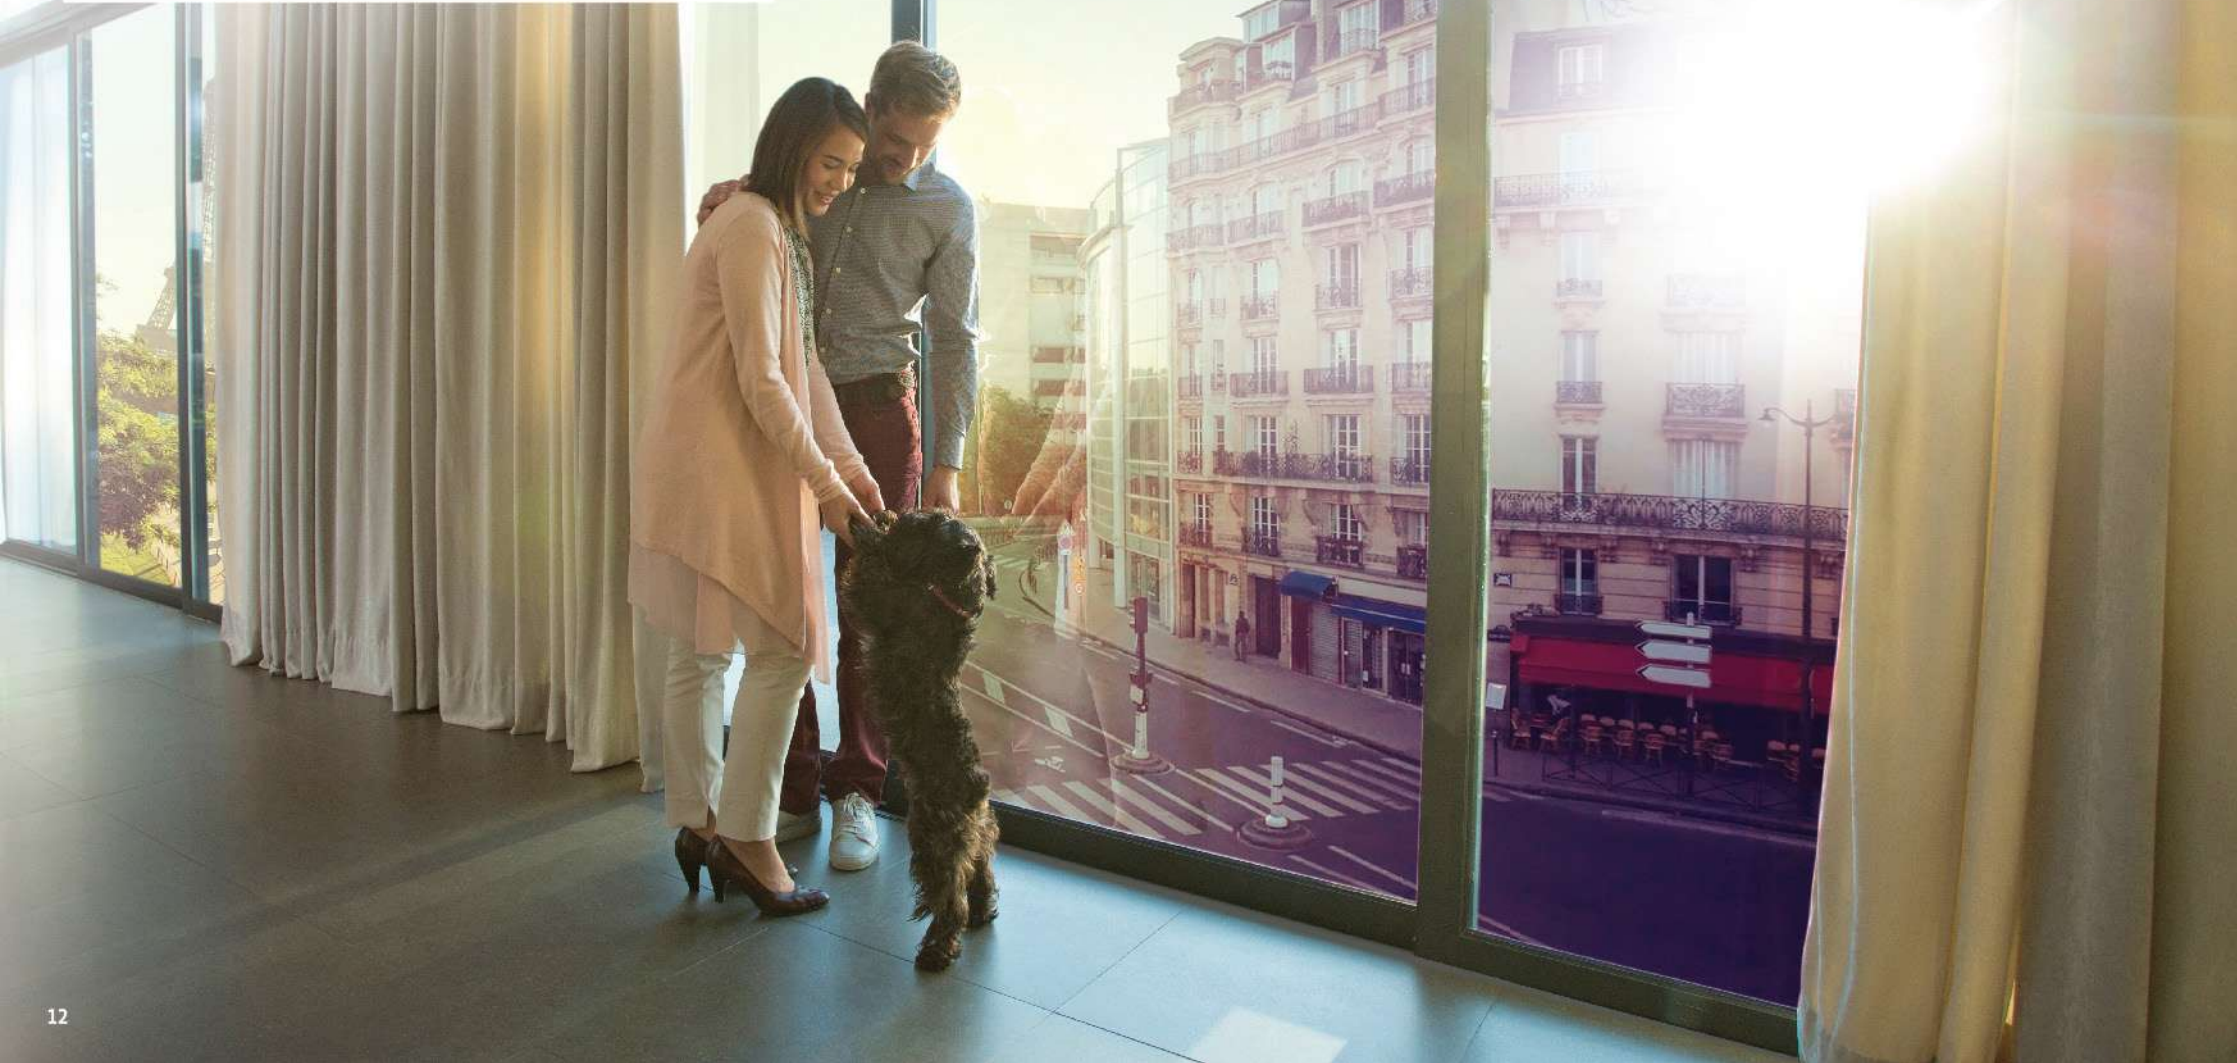

WireFree

Motorised Curtains elegance for your interior

Our solutions are ideal for all areas in your home, particularly suitable for hard to reach windows such as high ceiling windows, and deep-sill windows.

To protect and extend the life of your curtains, we've developed efficient high-precision motors. With Somfy solutions, your curtains will always be perfectly aligned to create an elegant ambiance.

Enjoy ultra-efficient curtains!

A solution adapted to your home

We know that every home is unique, so we offer different options to suit different interiors.

- For use with straight track
- Transverses up to 35kg of curtain fabric with track length up to 6m
- Regulated end limits setting
- Manual override, touch motion
- Compact design of battery

Motorised Blinds bring your creation to life

The motorised blind is installed exactly in the same way as a manual blind. The motor is installed out of sight in the blind headrail or roller tube. The system is very easy to configure and the blind can be used immediately.

Our Sonesse® quiet motors are available with a wide range of torques and speeds to motorise numerous types of indoor blinds: roll-up, roman, pleated, zebra, venetian, etc.

*Create an interior that
reflects your personality!*

Enjoy your privacy with our interior blinds, both elegant and blackout

If you want to dress up your windows, while protecting yourself from heat and the glare from the sun's rays, as well as keep prying eyes at bay when night falls, interior blinds are the way to go! You can pick from several models depending on your needs and the planned location of the blind.

Radio Technology Somfy

Industry leading level of premium silence

Trusted reliability, service and support you expect from a worldwide leader dedicated to providing a better way of living.

Connexoon Window RTS app and the new TaHoma® app easily control Somfy products with a smartphone or tablet at anytime, from anywhere. Home or away.

Smooove: wall switch

Bid farewell to white plastics switches and exuding brute strength when opening or closing your curtains and blinds. Somfy provides a wireless solution with Smooove battery-operated wall switch. Surface-mount design eliminates the need to cut the drywall which makes installation quick and simple. It also allows you to automate a single or a group of blinds intuitively and effortlessly.

Control your home the **smart way** with Somfy

The convenience and simplicity of tomorrow's home is available today. Experience an intelligent home where you can control your automated window coverings and lighting with ease.

One app to control your shades smartly

With Connexion Window RTS, you can now control your smart blinds and curtains wherever you are in the world or simply set schedules to let them do the work for you.

Enjoy the experience of controlling all window coverings from your smartphone and maximise the many benefits they provide: natural light, privacy and convenience.

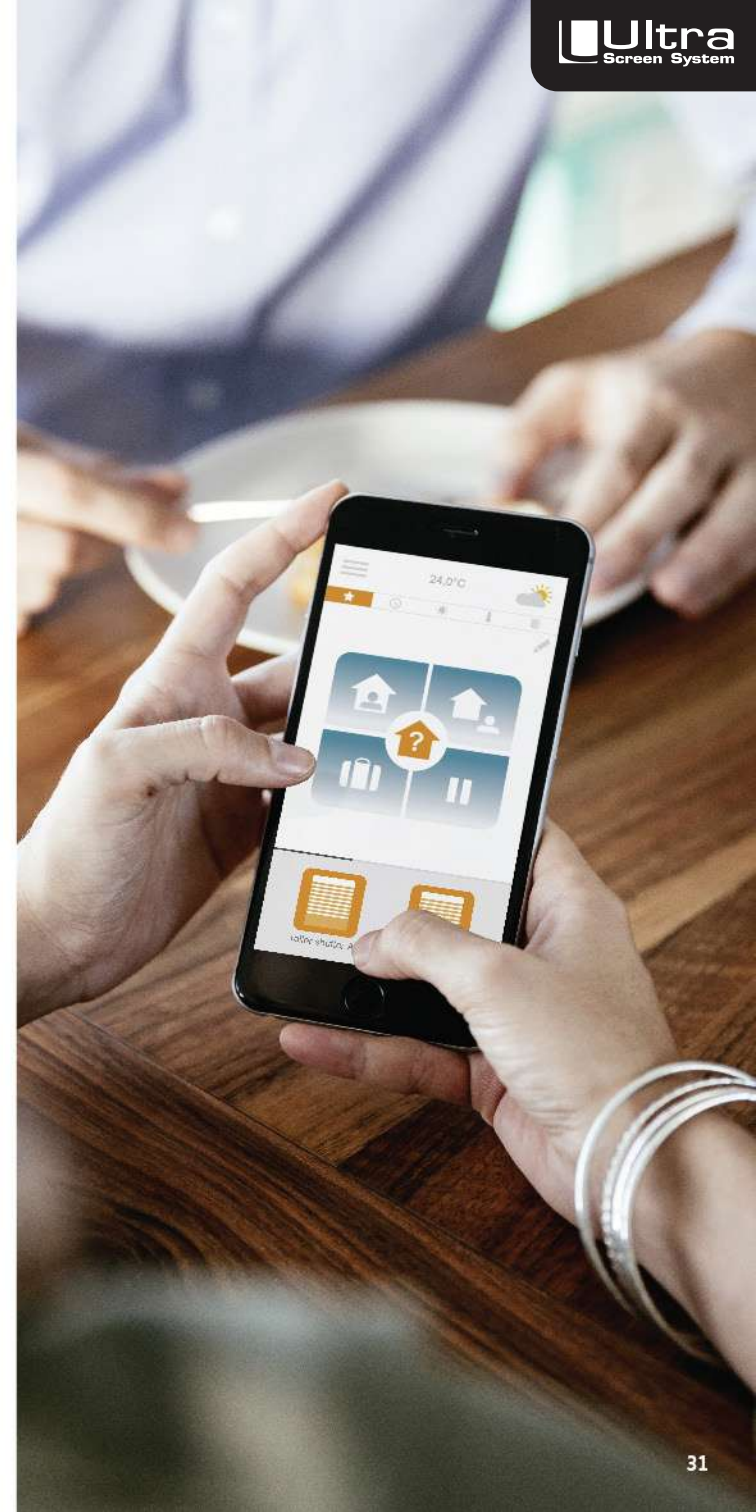

Voice Control

Enjoy the complete smart home experience with Amazon Echo or Google Home device, allowing you to operate your window coverings using simple voice commands.

"Alexa, trigger movie time!"

"Ok Google, let's party!"

Your home is now upgraded, and your life has never been so easy!

Powering your window coverings

With Somfy, you can discover automation options for all types of interior curtains and blinds. Mains powered or WireFree (battery) options offer different benefits and price points. You can also choose from a large selection of control options, including handsets, wall switches, timers or sensors. No matter what your preferred solution may be, Somfy guarantees ease of use, reliability and quality.

MY POWER OPTIONS

Mains, permanent power

If you have the option to include wired-in technology, you could consider our Sonesse range of motors. Control these quiet motors with a simple remote control or integrate them into your home automation system.

Why choose mains...

- Mains electricity ensures maximum power and smooth operation at all times
- Ideal for larger or heavier blinds
- Continuous power supply gives you peace of mind

Battery, a simple solution

Our WireFree™ motors can run on rechargeable lithium-ion battery therefore it eliminates the need to run cables behind walls which allows for easy installation and setup. There are no unsightly wires to deal with either to keep your décor clean and posh.

Why choose battery...

- Easy to install (save wiring cost)
- Long battery life (single charge lasts up to 9 months)
- Ideal for areas where it is difficult to get mains power

Powered by Somfy

Somfy motors are affixed discreetly within your shading system, or having a battery, and don't require any disruption to your decor. Our industry leading motors will deliver unrivalled power to your automated solution and come with a full warranty for your complete peace of mind.

UNIQUE BENEFITS

Smooth motion significantly increase blind / curtain lifespan

Automate your preset blinds to achieve maximum privacy

Activate "ambience" to align your shades with your mood

Protect your furniture and décor from the sun

Silent operation expresses class and elegance

Patented technology ensures quality, durability and safety

App and voice control options

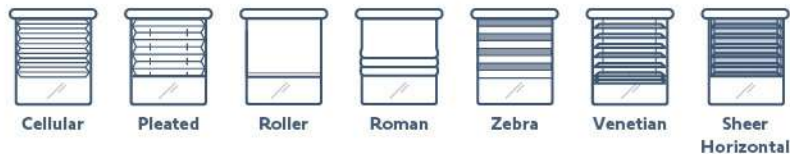

Cordless design for maximum safety for children and pets

Compatible with leading Smart Home Systems
